# **Governance and Reporting**Challenge

### Framework

- Over 100+ indicators collected annually from SE Asian SMEs (!)
- Limited feedback from Navis to PCs on data collected
- Reporting frameworks constantly evolving

### **Technical Solution**

- Annual data collection took too long and very resource intensive for portfolio companies
- No systematic ongoing measurements at PCs
- Increasing number of reporting requirements for LPs

NAVIS CAPITAL PARTNERS

# **Governance and Reporting**Shifting the Framework

### Framework

- Identified pain points:
  - Too many indicators yet not enough for LPs
  - No benchmarking available
- Decided to adopt EDCI reporting as it offers:
  - Limited number but universal indicators
  - Access to benchmarks
